

# EARTH DAY...

## "It's Not a Day, It's a Movement"

This Earth Day, let's re-commit to conservation. The health of our environment and water supply depend on it.

**FACT:** We've just had the driest three month period in history. Drought is worsening. Water supplies are declining.

**FACT:** Conservation efforts are falling short and water usage is increasing in many areas. California is **NOT** meeting the State's voluntary 15% water use reduction goal.
