### **ACTION AGENDA ITEM**

### 2022 – 2023 DRAFT AUDIT AND TRAVEL EXPENSE REPORT

Christopher Brown from C. J. Brown & Company CPAs presented to the Board a draft of the 2022-2023 Audit and Travel Expense Report. The auditors' report concluded, in their opinion, that the District's financial statements present fairly, in all material respects, the financial position of the District as of June 30, 2023. There were a couple of 2022 adjustments to the net position: 1) Adjustment overstatement of Pension Contributions reported in deferred outflows; and 2) Adjustment to record the discount on notes receivable. The Agreed-Upon Procedures Related to the Review of the Travel and Conference Expense Report were that two minor items were not provided: 1) Two receipts were missing from the supporting documentation for credit card statements; and 2) An expense for FY 22/23, in an inconsequential amount, was incorrectly excluded from the account. The 2022-2023 Audit will be considered for approval by the Board at the February Board meeting.

# Operations & Infrastructure - Action Plans

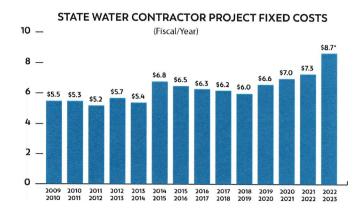

- Facilities Tours for Board Members
  - Schedule tours of District and County facilities for Board Members as background for Pipeline Rehabilitation program and consideration of *Pure Water Southern California* program (2024; 2025+)
- Schedule 1 Pipeline Rehabilitation
  - Complete Schedule 1 "Pilot" and assess results (2024 Q1/Q2)
  - Develop preliminary timeline for Schedules 2-6 (2024 Q1/Q2)

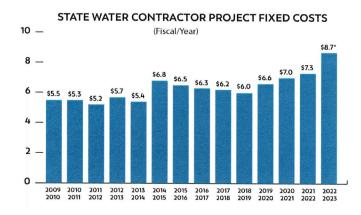

Operations & Infrastructure - Action Plans

- Pipeline Rehabilitation Cost Analysis
  - Identify "Corrosion Engineer" to review/input into
     Schedules 1-6 Cost Estimates and to protect the Pipeline in
     the future (2024 Q1)
  - Identify financial consultant to assist with Replacement Cost Analysis (2024 – Q2)
  - Conduct Replacement Cost Analysis (2025 Q1)
  - Identify financial consultant to help develop Capital Improvement/Replacement Plan, to analyze reserves and to provide input into rate study; Board preference is to "fast track" and/or overlap Schedules rather than working on one Schedule at a time; assess what expenditures "buy" the District in terms of Pipeline life/utility (2025 – Q2)
  - Continually explore strategies to improve ability to get both imported and local water sources "into the ground" by reducing over-capacity and congestion/bottlenecks within the delivery system; participate with DWR on SWP bottleneck improvements (2024; 2025+)

- Current SGVMWD Property Tax Rate, Water Sale Rate, County Property Tax
  - Consensus was achieved that the District's present property tax rate of \$.03 per \$100 assessed value (which is about \$100-150 per property) covers present State Water Project fixed costs that have gradually increased to \$8.7 million per year in 2022-2023 (and are largely dependent on energy costs). The \$8.7 million amount includes planning and research costs related to the *Delta Conveyance Plan* (2024 – no action needed)
  - Consensus was achieved that the District's water sales rates (\$200/AF from 2018-2022; \$220/AF in 2023) and the County's 1% Property Tax covers the District's present general and operating costs (a pass-through) and are much lower than other wholesale rates for treated/untreated water (ranging from \$900-\$1,400 per AF) (2024 no action needed)

- Future SGVMWD Property Tax Rate and Water Sales Rate
  - Consensus was achieved to maintain the current property tax rate of \$.03 per \$100 assessed value for the short-term (2024)
  - Consensus was achieved to adopt a \$240 per AF water rate for member cities in April 2024 as that level keeps the District "in the black" and was the forecasted rate provided to member cities a year ago (2024 – Q2/April)
  - The General Manager was requested to provide a forecasted water rate for 2025 in April 2024 (utilizing average rate increases over 10 years), and to also provide a longer-term, three-year forecast (qualifying those forecasts by noting sensitivity to energy costs, etc.). There is unanimous concern among Board members that cost increases are becoming so common/certain that water rate increases should reflect and anticipate those increases short and long-term (2024 – Q2/April)
  - The General Manager will provide the Board with information about sources of emergency funds, such as *Federal Emergency Management Agency* (FEMA) and the *Ibank*, that would supplement the use of reserves in the event of a catastrophic event (2024 – Q1)
  - The General Manager and Assistant General Manager will research and share with the Board what SGVMWD insurance covers if there is a catastrophic event or pipeline failure (2024 – Q1)
  - Once a Corrosion Engineer reviews staff estimates on Pipeline Rehabilitation costs, the District will retain a financial consultant(s) to conduct studies on capital replacement costs, rate studyand reserves study (2025 – Q2)
  - The District will offer a "Cost Workshop" (in-person or virtual) to member cities to further explain rate and cost factors (2024, 2025+)

#### Reserves Level

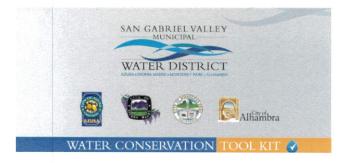

- There is concern that the present level of approximately \$25 million in reserves is adequate under normal conditions but would not be adequate in the event of a major breakdown/event. There are several obligations, such as the Sierra Madre Joint Well Project, that will be funded by reserves as those Projects proceed. Conversely, there have been several loans/grants made to member cities that will eventually be repaid to the benefit of reserves totals. Once a Corrosion Engineer reviews staff estimates on Pipeline Rehabilitation costs, the District will retain a financial consultant(s) to conduct replacement cost study, rate study and reserves study (2025 Q2)
- Bonding Capacity
  - Consensus was achieved to research the District's bonding capacity to help fund capital improvements as part of the previously mentioned financial consultant's scope of work (2025 – Q2)

#### • Human Resources Assessment (Staff, Consultants)

- Consensus was achieved that consulting costs, and potentially employee costs, related to financial, engineering, operations, and legal matters will increase in conjunction with Pipeline Rehabilitation and review/analysis of the *Pure Water Southern California Project* (PWSC). The District must budget for such costs (2024, 2025+)
- The General Manager was requested to get an update from MWD about the *Pure Water Southern California* Project as it has been nearly a year since MWD signaled its potential interest in utilizing SGVMWD facilities (2024 – Q1).
- Consensus exists that the long-term nature of several looming projects and potential cost increases may impact needed staffing levels and staffing expertise (due to both volume and nature of the work, and potential staff retirements). A suggestion to consider a "Chief Financial Officer" was discussed but not acted upon and may be revisited at an undisclosed future date.

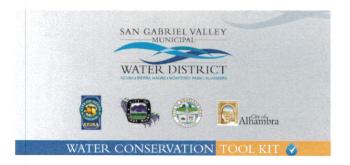

## Member City Relations Action Plan

#### Board and Staff Roles

- Board members affirmed their roles as "liaisons" and representatives of their respective cities. Noting that the pandemic adversely affected the ability of District representatives to interact in-person with stakeholders, there is consensus that more direct outreach is again possible and desired. At the highest level, efforts should increase to meet regularly with the Mayor, City Council members, City Manager and Public Works/Water Utility staff in each member city. External Affairs staff will assist Board members in preparing and offering a brief, annual "State of the District" presentation to each of the District's member cities, with that presentation also available to school boards, chambers of commerce, and other community/non-profit organizations. To-be-determined is whether this presentation is best in the spring as part of Water Awareness Month in May, at the start of the fiscal year in July, or upon production of the Annual Report in the fall (2024, 2025+)
- The District will continue to attend and present at City Council meetings (e.g. "State of the City" meetings), support important community events, and provide information about water issues and conservation (2024, 2025+)
- The District will offer tours of important District and San Gabriel Basin water facilities to both City Council members and key City staff to foster greater understanding of the District's water supply role (2024, 2025+)
- The District will increase its messaging related to water costs and infrastructure to complement its strong messaging about conservation (2024, 2025+)

## Member City Relations Action Plan

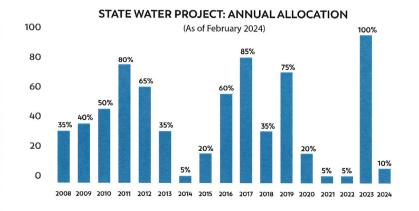

- SGVMWD Role/Obligations (Grants and Loans) to Member Cities
  - Consensus was achieved to develop a written policy that articulates how the District may provide financial support in the form of grants and loans to Member Cities. The External Affairs Manager and District Counsel will draft a "policy" to share with Member Cities to help clarify and guide the process of District financial support (2024 – Q2)
- Monterey Park Automated Meter Reading Request
  - The Board will address Monterey Park's request of a \$10 million loan for new meter reading equipment (2024 – Q1/Q2)

## Water Supply Solutions Action Plan - Imported

STATE WATER CONTRACTORS FOUNDED 1982

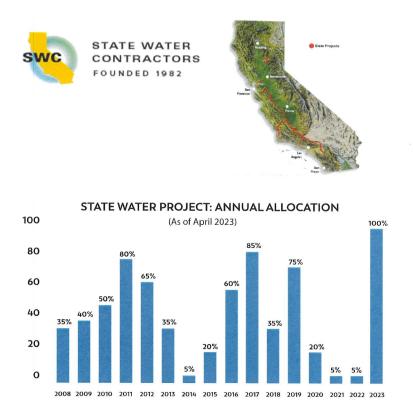

#### State Water Project and Delta Conveyance Project Status

 Consensus was achieved that the District, along with other State Water Contractors, supports the *Delta Conveyance Project*. In line with that support, the District awaits decisions by key players such as Metropolitan Water District, which is conducting its own cost/benefit analysis of the Project, and the Department of Water Resources, which is expected to request "bridge/gap funding" for the Project between March and June of this year. At that time, the Board will convene and discuss the District's future role and support of the Project (2024 – Q2/Q3)

## Water Supply Solutions Action Plan - Imported

- Banking Water and Smart Water Management as Means to Deal with Congestion and Bottlenecks in the State Water Project that Delay/Threaten Imported Water Supplies
  - While banking water is very expensive, the Board expressed interest in following and possibly participating in potential new "water banking" opportunities in both northern California and the Main San Gabriel Basin. The Dudley Ridge banking agreement is in place, but the District has yet to bank water in that manner. The Board also wants to track spreading grounds opportunities in the Main San Gabriel Basin being pursued by Watermaster such as the use of local pits and guarries to help get water in the ground. Spreading ground capacity may reach its limit if Pure Water Southern California proceeds and produces 65,000 AF/year. District management is confident all 28,800 AF of its 100% allocation from 2023 will be "in the ground" by June 2024 (2024, 2025+)

## Water Supply Solutions Action Plan -Local

# PURE NOTER SOUTHERN CALIFORNIA

#### • Pure Water Southern California (PWSC)

- The General Manager should follow-up with MWD about its interest in involving SGVMWD infrastructure in the PWSC Project and update the Board (2024 – Q1)

- Banking Water and Smart Water Management as Means to Deal with Congestion and Bottlenecks in the State Water Project that Delay/Threaten Imported Water Supplies
  - While banking water is very expensive, the Board expressed interest in following and possibly participating in potential "banking" opportunities in both northern California and the Main San Gabriel Basin. The Dudley Ridge banking agreement is in place, but the District has yet to bank water in that manner. The Board also wants to track spreading grounds opportunities in the Main San Gabriel Basin identified by Watermaster such as the use of local pits and quarries to help get water in the ground. Spreading ground capacity may reach its limit if *Pure Water Southern California* proceeds and produces 65,000 AF/year. District management is confident all 28,800 AF of its 100% allocation from 2023 will be "in the ground" by June 2024 (2024, 2025+)

#### Monterey Park Recycled Water Project

- The General Manager should follow-up with Sean Igoe and Frank Heldman in Monterey Park regarding the status of interest in and funding for the recycled water project that would potentially serve Monterey Park and Alhambra (2024 – Q1/Q2)
- The General Manager should follow-up with Central Basin to see if the opportunity for a recycled water project is still valid (2024 – Q1/Q2)
- Sierra Madre Joint Well
  - The project is in design phase and the District has committed \$1.9 million to the project involving Sierra Madre and Arcadia (2025+)
- Grant Funding
  - The District should pursue future grant funding opportunities through Federal and State grant programs (2024, 2025+)

# External Affairs Action Plan

- Messaging
  - Messaging on conservation is very thorough; increase and blend in messaging about costs, water scarcity and infrastructure to all audiences (2024 and 2025+)
- Rebates
  - Research potential new rebate items for inclusion in the program (2024 and 2025+)

### • Grants for Turf Replacement

 Pursue grant from Bureau of Reclamation for 50% matching grant for turf replacement conservation programs (2024)

### • Water Bond

 Obtain update from California Advocates and Dennis Albiani about potential November 2024 Water Bond and communicate to Board. If on the ballot, develop communications plan to provide information, not advocacy, about the Bond. (2024)

# External Affairs Action Plan

- Water Forum
  - The Forum Partners are not pursuing a large, singular event.
     Rather, the Partners are interested in multiple smaller, targeted events throughout the year. (2025+)
  - The District should determine its future role within the Partner group given its past leadership role. (2024 – Q2)
  - Funds contributed by 2020 Water Forum sponsors remain in District accounts. The use or return of the funds should be determined as soon as possible (2024 – Q1/Q2)
- Outreach Calendar
  - Staff has been developing a 12-month outreach calendar. Once completed, it should be updated regularly and shared with the Board (2024 - Q1, 2025+)
- Water System Tours
  - The District should participate in a February tour for legislators in conjunction with the Water, Parks and Wildlife Committee (2024)
  - The District should plan and conduct tours periodically during the year for local elected officials and community leaders (2024, 2025+)

#### **EXHIBIT C**

#### 2-4.323<sup>39</sup> TELECOMMUTING POLICY

(a) <u>Statement of Policy</u>. Telecommuting is an alternative work arrangement intended to provide eligible employees with options of working from a home office, or other pre-approved remote work location, on a regularly scheduled basis. Unless telecommuting is required by the District, the District views telecommuting as a privilege and an option when (i) there is a clear advantage to the District, (ii) job oversight requirements allow for such an arrangement, (iii) where telecommuting may be appropriate and feasible as a reasonable accommodation for a disability or other reasons, and (iv) the employee meets eligibility criteria.

This telecommuting policy applies to employees who work from home or other pre-approved remote work locations on a regularly scheduled basis during any part of their standard work week. Employees who telecommute remain bound by all District policies and procedures, including but not limited to any privacy and information security policies of the District. Employees who (a) work from home on an infrequent basis (e.g., once a month); (b) work remotely while traveling for District business; or (c) work additional hours from home outside of their standard work hours, are not considered regular telecommuters under this policy.

Telecommuting is based on the needs of the job, and the District has the sole discretion to determine whether a telecommuting arrangement is feasible and will be permitted. A telecommuting arrangement may be modified, suspended, or terminated at any time by the District, in its sole discretion, for any reason. If District decides to terminate a telecommuting arrangement or asks an employee to return to work at the regular District work location, and an employee declines to do so, this will be considered a

<sup>39</sup> Sec. 2-4-.323 added by Res. No. 2-2024-\_\_\_\_, on Feb. 12, 2024.

voluntary resignation. Nothing in this policy, or any telecommuting arrangement, is intended to alter the at-will nature of an employee's employment at District.

The employee's duties, compensation, benefits, work status, work responsibilities, and the amount of time the employee is expected to work per day or per pay period will not change due to any permitted telecommuting unless otherwise agreed upon in writing by District.

- (b) <u>Purpose</u>. The purpose of this policy is to provide guidelines and requirements for employees who are telecommuting from a home office or other pre-approved work location.
- (c) <u>Scope and Applicability</u>. This policy applies to all non-temporary employees of District. Employees who have completed one (1) full year of active employment, are in good standing, and have consistently maintained an acceptable level of performance, as determined by the District's General Manager (or the Board of Directors in the event of telecommuting by the General Manager), are eligible to request a telecommuting arrangement. Exceptions may be approved for employees with less than one year of employment based on business needs, approved reasonable accommodation requests, or emergency situations necessitating a telecommuting arrangement (e.g., pandemic, earthquake, or other natural disaster).
- (d) <u>Considerations</u>. Employee requests to telecommute are considered on a case-by-case basis, based on job-related factors, including but not limited to the employee's job duties, current workflow, business needs, and other similar factors. The General Manager will review any proposed telecommuting arrangement to ensure the requesting position is suitable for a telecommuting arrangement. Stricter standards to allow

telecommuting may apply to various positions based on job duties. Telecommuters must be accessible during the scheduled work hours and willing and able to attend meetings at their regular District work location as required for their job.

- (e) <u>Procedures</u>.
  - (i) Approval Process: Employees who believe telecommuting can enhance their ability to perform their job duties should submit a written request to the General Manager. All telecommuting requests must be approved by the General Manager and any employee who will be telecommuting must sign a telecommuting agreement, in the form presented by the District, before commencing telecommuting. If the employee's remote work location changes, the employee is responsible to notify the General Manager in advance of such change to obtain approval to continue telecommuting. All telecommuting arrangements will be reviewed on an ongoing basis and include an assessment of whether the telecommuting arrangement continues to make good business sense. In addition, the General Manager will conduct a review any time there is a change in circumstances with the employee who telecommutes, such as a decline in quality of performance, a reduction in productivity, or a change in roles or business needs.

(ii) <u>Hours of work and overtime</u>: The employee's at-home work hours will conform to a schedule agreed upon by the employee and the General Manager. If such a schedule has not been agreed upon or established, the employee's work hours shall be the same as they were before the employee began telecommuting. Changes to this schedule must be reviewed and approved in advance by the General Manager. The employee must devote his or her full attention, energy, and business time to his or her work during the agreed upon standard hours. In addition, the employee may be required to report, in person, for meetings, training, and other events at the direction of the General Manager or as needed to complete the work, in the sole discretion of management.

Telecommuters must be as accessible as their on-site colleagues during their normally scheduled work hours. Telecommuting is an alternate work arrangement, not an alternative to dependent or childcare. Employees should manage dependent/childcare and personal responsibilities in a way that allows them to successfully meet all job requirements and in the same way they would if they were working in a District office.

All employees who are required to submit timesheets, including those who telecommute, are required to accurately submit their timesheets in a timely manner. This includes the accurate reporting of days off (such as for vacation or sick leave taken, or other approved time off) and in the case of non-exempt employees, all hours worked, including all time worked beyond standard hours. As is the case for all non-exempt employees, non-exempt employees who telecommute must obtain approval to work overtime in advance of any overtime worked. As is the case for all non-exempt employees, non-exempt employees who telecommute are also required to timely take all rest and meal periods and the recording of meal periods.

(f) <u>Remote Work Locations and Workplace Safety</u>. Employees are not permitted to hold District-related business meetings in-person with other persons at their remote work locations or to identify their remote work locations to the public as a District location. Employees agree to provide reasonable access to their remote work locations, including home office access, to District representatives for conducting investigations or inspections, as required.

Employees are required to maintain a separate, designated work area that is free from distractions. Employees must observe all information security procedures and password protocols while working remotely.

Employees are responsible for regularly checking the workspace in their remote work locations to ensure they comply with all health and safety requirements, including appropriate workstation configuration for reduction of repetitive stress and similar injuries. At a minimum, employees working remotely should ensure (i) they have basic first aid supplies, (ii) their smoke detectors are operational, (iii) a fire extinguisher is near or in the workspace, (iv) their work area is free of trip hazards, (v) surge protectors are in place, and (vi) their remote work area is adequately lit, clean, and orderly. The District will not be responsible for any costs associated with the initial setup of the employee's remote work location, such as remodeling, installing furniture or lighting, or making repairs or modifications to that space, unless required by applicable law.

Any equipment in the remote work location should be placed where it is adequately supported and there is no danger of it falling. Equipment should be connected to a properly grounded outlet and all wires kept out of walkways. The District will be responsible for any work-related injuries under the applicable state's Workers' Compensation laws, but this liability is limited to injuries resulting directly from performance of work for District and only if the injury occurs in an employee's designated work area. Employees are responsible for immediately reporting to the General Manager any work-related injury or illness that occurs so the procedure for handling such claims can be followed.

#### (g) <u>Expenses and Tax</u>.

- (i) <u>Employee Requests to Telecommute</u>: If an employee requests to telecommute (even though the District has an on-premises work location available for the employee), the employee will be responsible for (i) all expenses incurred in connection with working from the remote location and (ii) any damages or repairs to employee-owned equipment. Such expenses incurred by employees who seek remote work are **not** necessary business expenses. If an employee does not wish to incur any such expenses, the employee may instead work full-time at the District's office location where all office equipment (e.g., telephones, Internet, office furniture, and office supplies) are provided by the District at no cost to the employee.
- (ii) <u>Employees for Whom Telecommuting May be a Reasonable</u> <u>Accommodation</u>: If telecommuting is approved for an employee as a reasonable accommodation for the employee's disability, the District will reimburse the employee for the appropriate portion of the employee's bills and expenses necessarily and reasonably incurred in relation to their work. This may include telephone and internet usage, teleconferencing costs, anti-virus software, and office supplies; for which, the employee will receive a flat monthly reimbursement, as determined by the District based on average costs for such costs in the location where the employee may be telecommuting. These reasonable and necessary business-related expenses must have the prior written authorization of management.

This reimbursement is intended to be a reasonable percentage of the employee's monthly cell phone and internet bill reflecting the employee's work-related use of these services, as well as any other expenses properly incurred that relate to the telecommuting arrangement. If an employee incurs business-related expenses which exceed these amounts, the employee must notify the General Manager as soon as practicable after the charges have been incurred. Employees who incur such reasonable and necessary excess expenses for business-related reasons will be reimbursed the additional amount upon submission of supporting documentation and approval of the expenses. Employees must submit a copy of their invoices, with a detailed listing of the business usage or other necessary business expense, attached to the reimbursement form for approval prior to being reimbursed.

Employees seeking telecommuting as an accommodation must submit an accommodation request to the General Manager. Any special equipment an employee with a disability may need to facilitate his or her ability to telecommute will also be reviewed and handled in accordance with applicable legal requirements.

Employees are responsible for determining any income tax implications, if any, of maintaining a remote work location. District will not provide tax guidance nor assume any additional tax liabilities. Employees are encouraged to consult with a qualified tax professional to discuss income tax implications.

- (h) <u>Policy Violations and Escalations</u>. All violations of this policy must be brought to the attention of the General Manager. Consequences of noncompliance with this policy may result in disciplinary action up to and including termination of employment.
- (i) <u>Sunset Date</u>. This Policy will expire and be of no further effect as of December 31, 2025 unless action is taken by the District's Board of Directors to extend the effectiveness of this Policy.

#### Memorandum

To: San Gabriel Valley Municipal Water District Board of Directors

From: Darin Kasamoto General Manager

Date: February 8, 2024

Subject: General Manager's Report

#### 1. SWP UPDATE

The Delta Conveyance Project (DCP) Public Draft EIR Comment period has ended. The EIR was certified by DWR on December 18, 2023.

The initial State Water Project allocation for 2024 was set at 10%. Conditions throughout the state have improved in the month of January and so far in February.

#### 2. MAIN SAN GABRIEL BASIN UPDATE

As of January 27, the Key Well is at 222.4 feet which is 1.7 feet lower than the reading on of December 29, 2023. The historic low is 169.4 feet.

#### 3. GRANT PROGRAM UPDATES

The District, through Steve Bucknam and Hazen and Sawyer, is continuously monitoring grant programs which could help fund District and city projects.

The District is in the process of applying for a USBR grant to help fund a turf replacement program. The grant would require a 50% match from the District.

#### 4. MANAGEMENT ISSUES

The Letter of Intent for the Regional Recycled Water Project has been approved by all parties. I have had a follow-up with MWD on the next steps, and they want to look into the use of SGVMWD's existing infrastructure to add flexibility to the project. We have sent all of the information requested by MWD for them to begin this analysis. The preliminary analysis performed by MWD indicates that it is physically possible to use our pipeline to get water to the treatment plant in La Verne. Stetson Engineers has been hired to analyze the benefits and potential downside of this proposal. The first draft of the report has been received, staff has met with Stetson to discuss and Stetson will incorporate the comments into the report.

The District is monitoring some future groundwater banking programs for potential participation. More information will follow.

The District has received a request from the City of Monterey Park to consider an additional loan for the city. I recommend that the District wait until the 2022-2023 audit is finalized before considering this request.

# Memorandum

To: San Gabriel Valley Municipal Water District Board of Directors

From: Steve Kiggins, Assistant General Manager

Cc: Darin Kasamoto, General Manager

Date: February 8, 2024

Subject: Assistant General Manager's Report

- 1. January 2024 deliveries: 1,934 AF to SGVMWD cyclic storage. Undelivered 2023 Carryover as of January 31st: 12,466 AF. Table A Allocation CY 2024: 10% / 2,880 AF.
- Total deliveries to cyclic storage CY 2024: 1,934 AF. Cyclic storage balance as of December 31, 2023: 5,492.86 AF. Amount of water banked on behalf of Dudley Ridge Water District: 14,209 AF.
- 3. February 2024 delivery forecast: A ~50 CFS delivery at San Dimas Wash will resume as LACPW spreading grounds capacity allows.
- 4. January Hydro Power Production: 469.7 MWh / \$27,649.95.
- 5. Project Updates:
  - A. DCAP SCH I PIPELINE CONTINUITY BONDING, CORROSION ASSESSMENT VALIDATION AND CATHODIC SYSTEM DESIGN: Tee installation and corrosion assessment validation fieldwork are completed. Joint bonding is progressing at ~10 joints per day. At the current pace, bonding work should be completed at the end of March.
  - B. DCAP PIPELINE HYDRAULIC MODEL DEVELOPMENT AND TRANSIENT WAVE ANALYSIS: Civiltec has performed the transient wave analysis for Schedule I and has shared the data with PICA to update the Failure Risk Analysis and Repair Prioritization Report.
  - C. SAN GABRIEL FLOW CONTROL STRUCTURE 30" BALL VALVE REPLACEMENT: RC Foster Corporation has completed the installation and will return during pipeline pressurization to verify there are no leaks.
  - D. HYDROELECTRIC FACILITY 24" BUTTERFLY VALVE REPLACEMENT: (No change) The valve is installed and paving was completed on July 28th. Due to non-standard valve control wiring at the Hydro, the decision was made for the District to purchase a simplified relay-based Auma actuator and repurpose the more advanced actuator at Big Dalton Pressure Reducing Station to replace a failing obsolete actuator. The cost was ~20% (\$700) more than cannibalizing the advanced actuator. The new actuator should arrive in late February.
